We have examined the accounts of the School District Treasurer, and find them correctly cast and properly vouched. The note given by the Selectmen to the School District Treasurer in 1901 for \$186.22, comprising the No. 1 and No. 2 School Fund, is supposed to be in the safe, although nobody has seen it for several years. We cannot find any record of any interest having been paid since 1902, when \$10 was used in Scotland.

REPORT OF SCHOOL BOARD.

In making up our report we will say that we have endeavored to hire good teachers, and we think there has been very good work accomplished in most of the schools, where the parents have taken an interest and visited the schools several times during the year. Then they know more about what their children are doing and it also encourages them and the teacher. Therefore we would recommend that all parents and custodians of children co-operate with the teachers and send their scholars to school to learn and obey orders and not be picking flaws with the teacher. Also be more punctual and have less tardy marks and as few absent marks as possible and they will derive a great deal more benefit and there will be less trouble and we will have a better looking register and a much better report to send to the State Superintendent. Please let us remember this and see what good work we can do the coming year, because without good attendance and good order schools do not amount to much,

Respectfully submitted,

M. R. GLAZIER,	}	School Board of Landaff.
